

REDUCE ENERGY COSTS WITH ECO-FRIENDLY ULT'S

Maximum performance, lower environmental impact.

Using greener solutions doesn't mean you are compromising quality. New Thermo Scientific™ TDE Ultra-Low Temperature Chest Freezers are loaded with planet-friendly features that don't sacrifice performance or reliability.

Sustainably designed from start to finish

- Manufacturing—All our ULT chest freezers are made in “zero-waste” facilities with 60-70% recycled steel.
- Product design—New Thermo Scientific TDE ULT Chest Freezers use natural hydrocarbon refrigerants and polyurethane foam with non-HFC blowing agent, having zero Global Warming Potential (GWP) insulation for minimal environmental impact.
- Compliance—New freezers meet the European Union's F Gas regulations and the U.S. EPA's Significant New Alternatives Policy (SNAP).
- Packing & Shipping—We use locally sourced, 100%-by-weight recycled corrugate.
