

PROTROL RESPIRATORY VIRUS

PRORSVB-040 1 mL

PRORSVA-040A 1mL

PROtrol™ is intended for use in analytical and quality control testing of antigen based assays. The pre-inactivation titer was determined from an infectious aliquot. Each lot of **PROtrol™** was tested using an RSV Fusion Protein ELISA.

Organisms | Inactivated Organisms | PROtrol | PROtrol Respiratory Syncytial Virus

We are pleased to offer you two new PROtrols for Respiratory Syncytial Virus Type A and Type B. The suitability and performance characteristics should be determined by your laboratory for each intended usage.

These products are NOT intended for use in the manufacture or processing of injectable products subject to licensure under section 351 of the Public Health Service Act or for any other product intended for administration to humans.

Contact **Sep Sci** for more information.
