

**READY TO USE MEDIA**

**Save Time in the Lab and Save Money!!**

**Cellonex** now supplies media that is made up for you and ready to use!!

All common **Cell Culture Media** are offered as ready to use, e.g. **DMEM, RPMI 1640, and DMEM/HAMS F12.**

Prepared with the concentration of FBS that you need, already added. (2%, 5%, 10%, 20%). \*Premium grade serum is used.

PenStrep/Fungizone and Anti-mycoplasma reagents are added(0.2%). This is the media and serum that **Cellonex** uses to grow up their cells in the repository. Our cells love it.

**No permits required.**

Only buy what you need and save your grant money for other essential reagents.

All media is prepared in sterile conditions in a clean room where strict GLP is implemented.
